

In Zambia, one-third of elementary aged children never attend school. Almost three-quarters of the ones who do will not make it past grade eight.

This is why *The Esther School* is being built in Chongwe, Zambia to address the educational and spiritual needs of the orphaned and under-resourced children living there. The school will embrace a distinctly Christian worldview as it seeks to equip children to live healthy, productive, and fulfilling lives.

As the campus is developed, *The Esther School* will become completely self-sustaining. Students will participate in the sustainability and learn valuable skills as they care for the gardens, orchards, fishery, chicken runs, and cattle barns.

In your honor, a gift has been made to *The Brick Campaign* to help complete the library of *The Esther School*. May this gift bring you joy as it brings hope to thousands of orphan children who dream of attending the school.
